

## Treasury Department,

Bureau of the Mint,

Washington, D. C., June 16, 1899.

Messrs. Hendricks Brothers,

No. 49 Cliff Street,

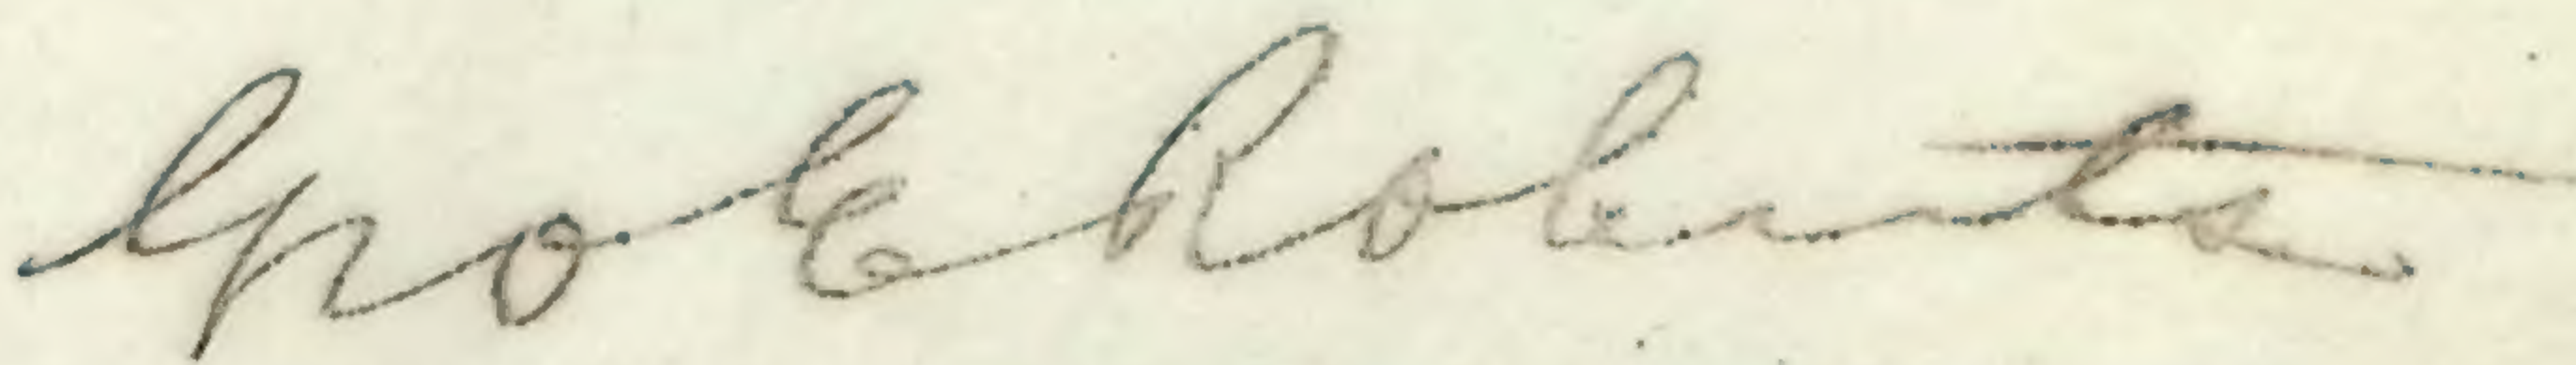

New York City, N.Y.

Gentlemen:

I will thank you to state the price per pound, at which you would furnish, as required from time to time, to the Mints at New Orleans and San Francisco, respectively, the copper which will be required for alloying the coins of the United States during the fiscal year ending June 30, 1900. It is essential that the copper should must be guaranteed free from impurities.

The amount of copper required will be from thirty (30) to forty (40) tons by each institution.

Respectfully yours,

Director of the Mint.

S.

Bureau of the Mint,

Washington, D. C.,

June 28, 1899.

The American Metal Co., Ltd.,

53 Broadway,

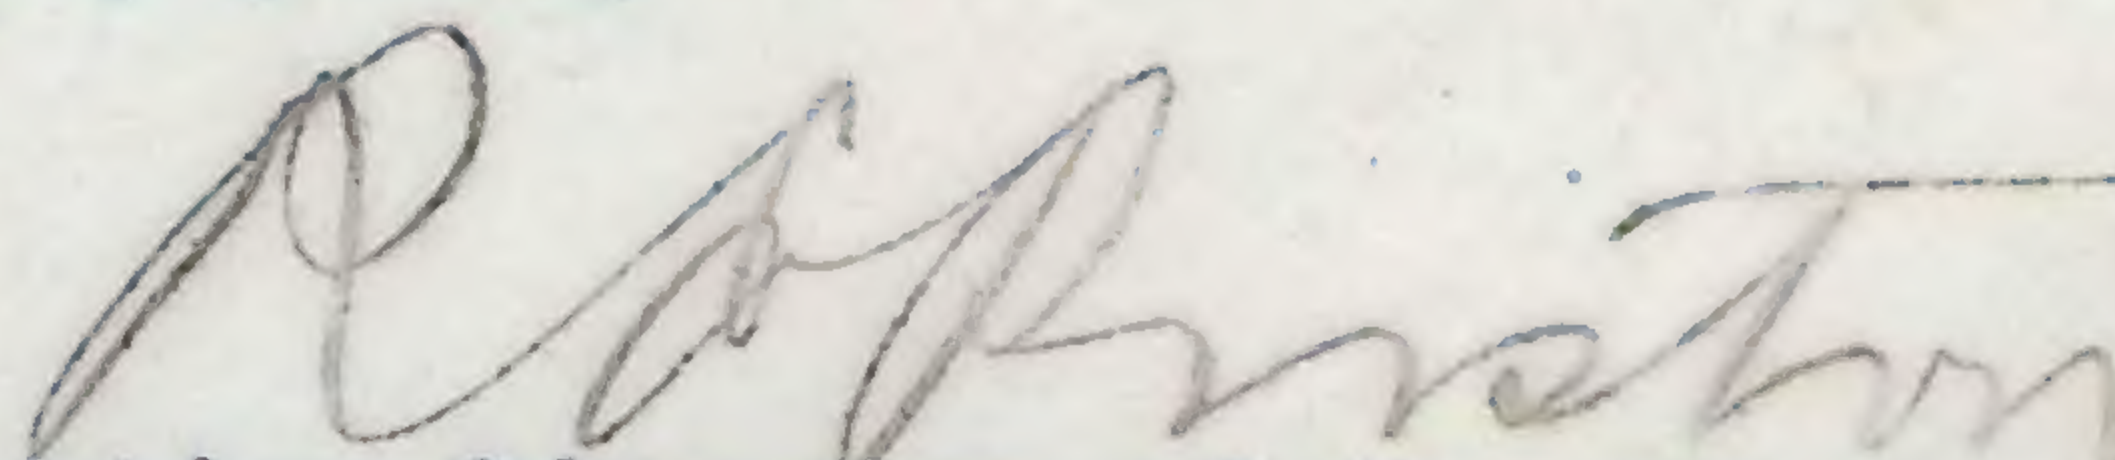

New York City, N.Y.

Gentlemen:

Referring to your letter of the 17th instant in reference to the copper that will be required for the Mints at New Orleans and San Francisco during the fiscal year 1900, you are respectfully informed that what we desire is ingot copper with thin bridges. The copper must be pure.

The shipments would be made from time to time as required, of which 30 to 60 days notice would be given.

Respectfully yours,

  
Acting Director of the Mint.

## Treasury Department,

Bureau of the Mint,

Washington, D. C.,

June 26, 1899

Messrs. Leitch, Clark and Wainwright,

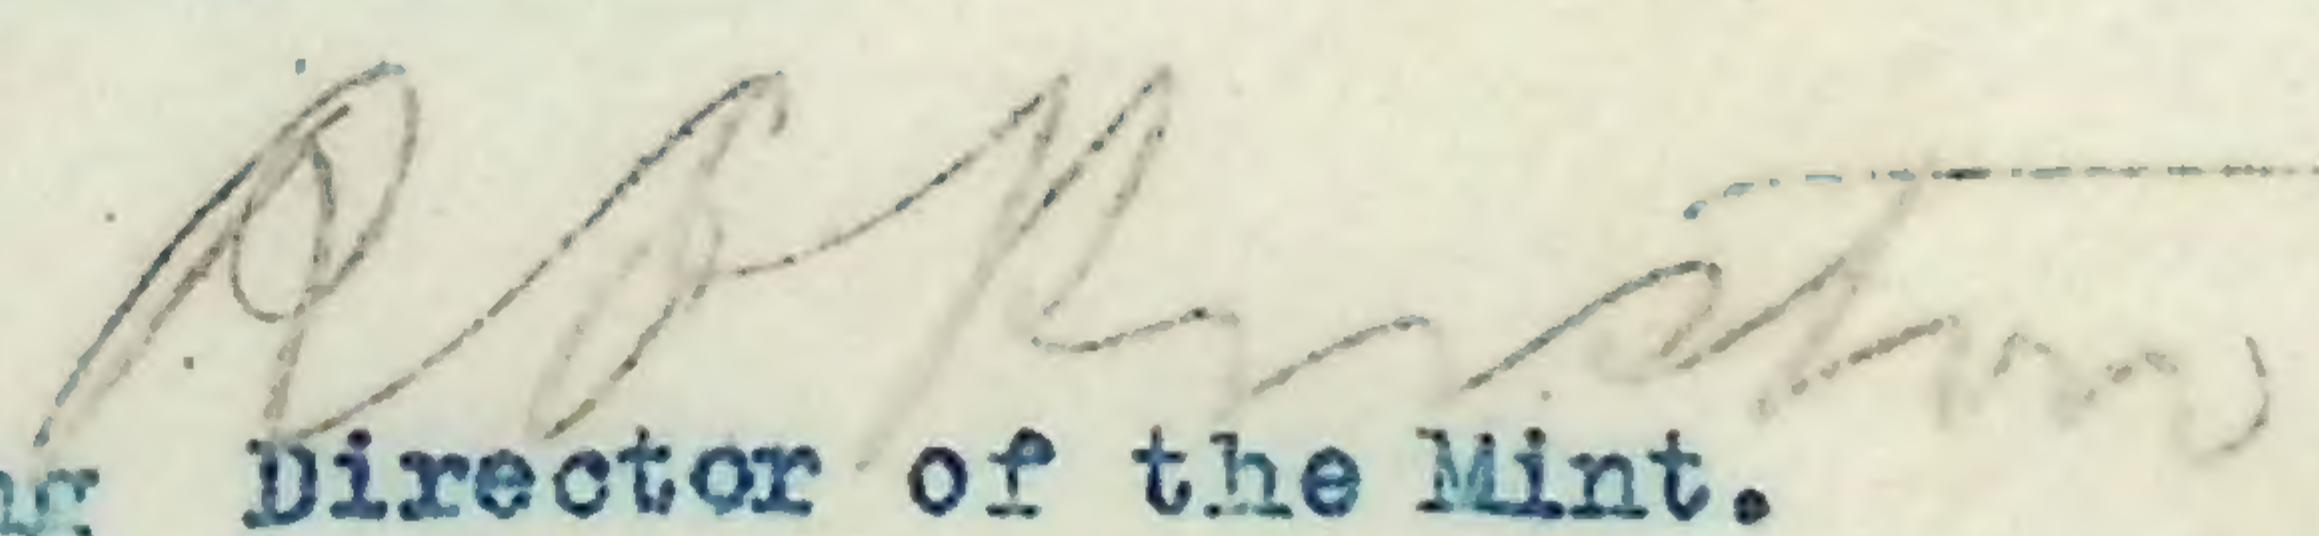

81 Fulton Street,

New York City, N.Y.

Gentlemen:

Referring to your letter of the 17th instant, in reference to the copper for mints that will be required at New Orleans and San Francisco, for alloy, you are respectfully informed that what we require is the best ingot copper with thin bridges. The Government buying copper has heretofore purchased same free of all charges and costs. If the "Quincy" copper which you offer is pure copper it would answer the purpose, but for the alloy for gold and silver we require a copper that is pure.

Respectfully yours,

  
Acting Director of the Mint.
